CONSUMPTION CAN BE CURED.—
Dr. HASTINGS'S COMPOUND SYRUP OF NAPHTHA—The wender and doubt felt by the medical faculty consumption by the use of Naphtha as a remedial agent, has now, after eight years of trial, settled down into a deep conviction that there are few or no cases in which consumt viction that there are few or no cases in which consumption cannot be cured by Dr. HASTINGS'S COMPOUND SYRUP OF NAPHTHA. In every case in which it has been tried in England or the United States it has been followed by immediate relief and ultimate cure. In the Blenheim Free Dispensary, under the charge of Dr. Hastings during five years that the Naphtha has been in use, there has not been a single death from disease of the lungs, while previously patients had died almost every week. In inespi-ent stages of consumption the effect of the Naphtha Syrup is almost miraculous, and a cure effected in an incredible short space of time. In the more advanced stages, and even m the third or last dreadful division of this hitherto incura-ble disease its effect is equally wonderful. This period is marked by the expectoration of the tuberclessin cheese-lake particles mixed with pus, mucus, blood, etc., and most are particles indeed with severe diarrines. On administering the Naphtha Syrup the formation of the tubercles is almost instantly arrested, the foreign matter thrown off, the tubercles already formed are destroyed, and the breathing immediately becomes easier, and the patient on the third night, after first taking the Syrup, is often able to enjoy a quiet night's rest, a thing unknown for weeks previously.

THE TRIAL OF A SINGLE BOTTLE is all that is asked by the proprietor to prove this medicine to be all that has been stated.

SPITTING OF BLOOD The most severe attacks of spitting of blood have inva-riably been stopped within the short space of thirty min-utes, and all disposition to recurrence of the same prevented.
